**Subject:** Rosemont mine

**Categories:** Blue Category

Hello---I'm writing this E-mail in support of issuing Rosemont mine their letter of acceptance from the EPA. I have visited the proposed mining site & read most of the articles for & against this new venture. Because of the new standards & sustainability required for this new operation, I would like you to vote positive for continuing the process. I'm a retired person who wants USA independent strength and local jobs.

Thanks for helping protect our country, Jim Littlejohn
